

Nithin R

AI Full Stack Developer

Moodbidri, Mangalore • nithinr123n8@gmail.com • +91 9164733579 • LinkedIn • GitHub • LeetCode • GeeksforGeeks

EDUCATION

Alva's Institute of Engineering and Technology, Mijar

2023 – 2027

Bachelor of Engineering in Computer Science and Engineering | CGPA: 7.5

EXPERIENCE

Software Engineering Job Simulation | JPMorgan Chase and Co. (Forage)

March 2026 – April 2026

- Set up Apache Kafka messaging pipelines for live data streaming across a distributed financial system with low-latency event processing.
- Implemented RESTful API controllers using Spring Boot with an H2 in-memory database for transaction processing.
- Completed project setup including dependency management, server configuration, and API testing using Postman.

GenAI Job Simulation | BCG X (Forage)

March 2026 – April 2026

- Executed structured extraction and exploratory data analysis (EDA) on client financial datasets, identifying trends for business reporting.
- Created an LLM-powered chatbot to automate client query resolution, reducing time spent interpreting complex financial reports.

Cyber Security Analyst Virtual Internship | Tata Consultancy Services

2025

- Conducted vulnerability assessments and penetration testing using SIEM tools, identifying 15+ critical security gaps across enterprise environments.
- Mitigated security incidents under ISO 27001, NIST, and GDPR compliance frameworks, cutting incident response time by 30%.

TECHNICAL SKILLS

Programming Languages: C, Python, Java, JavaScript, HTML, CSS

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Competitive Programming

Frameworks and Libraries: React.js, Node.js, Next.js, Flask

Databases: MySQL, MongoDB, Firebase, PostgreSQL

Cloud and DevOps Tools: AWS, Git, GitHub, Vercel, XAMPP, n8n, Framer

Other Technologies: REST APIs, Web3, Apache Kafka

PROJECTS

Vatsalya – AI-Powered Eldercare Monitoring Platform

GitHub • Live Demo

React.js, Node.js, Express.js, MongoDB, Firebase, Socket.IO, PWA

- Launched a PWA with dual caregiver and patient interfaces, continuous health monitoring via Socket.IO, and a multilingual voice assistant across 5 Indian languages for rural accessibility.
- Deployed an offline-capable 1-tap SOS alert system tuned for 2G networks with OpenStreetMap and Practo API integration; advanced to Round 2 of Cognizant Technoverse Hackathon 2026.

TrustLens AI – Dataset Bias Detection Platform

GitHub • Live Demo

React.js, Node.js, Python, Flask, LLM, SHAP

- Assembled a bias detection platform computing 8+ fairness metrics (demographic parity, equalized odds, disparate impact) with LLM-generated explainable audit reports.
- Slashed manual bias review time by 60% for analysts through a dashboard aimed at non-technical users.

Smart Crop Disease Detector

GitHub

Python, CNN, OpenCV, Deep Learning, TensorFlow

- Trained a convolutional neural network (CNN) achieving 92% classification accuracy across 15 crop disease categories; OpenCV preprocessing cut inference latency by 40%.
- Designed a live early-warning decision-support dashboard serving 200+ farmers with automated disease alerts and treatment recommendations.

Crypto Wallet for Newbies

GitHub

React.js, Node.js, MongoDB, Web3.js, Ethereum, JWT

- Developed an Ethereum wallet with JWT authentication, AES-256 encryption, and blockchain transactions supporting 5+ ERC-20 tokens.
- Reduced onboarding steps by 50%, making Web3 and decentralized finance (DeFi) accessible to first-time crypto users.

CERTIFICATIONS

- | | |
|---|--|
| • Software Engineering Job Simulation – Forage (JPMorgan) | • Machine Learning Crash Course – Google |
| • GenAI Job Simulation – Forage (BCG X) | • Computer Networks and Network Security – Coursera |
| • Model Context Protocol: Advanced Topics – Anthropic | • Cybersecurity Analyst Job Simulation – Forage (Deloitte) |

HONORS AND AWARDS

- Top 6 Finalist – EKAIVA 2025 National Hackathon (130+ teams) | Top 5 Finalist – CUK-CS Hackathon (80+ teams)
- Organised Xypheria 2026 – National Level 24-Hour Hackathon at AIET under C-Maniax CSE Student Club, coordinating sponsor outreach, volunteer management, and institutional approvals.
- Delivered cybersecurity workshops to 120+ college students; led digital safety sessions for 150+ school students across 3 institutions.
- Solved 150+ problems on LeetCode and actively contributed solutions on GeeksforGeeks.
